

Shazia Zameer

Full Stack Web Developer

Email: shaziazameer7867@gmail.com **Phone:** +91 9026978119 **Location:** Lucknow, India
Portfolio: [shaziazameer.dev](#) **GitHub:** [github.com/Shazia-Zameer-999](#)

CAREER OBJECTIVE

Computer Science student with freelance development experience and a strong interest in problem-solving, backend systems, and learning through building. Experienced in Python, Flask, React, and modern web technologies, with a track record of independently solving real-world technical challenges.

WORK EXPERIENCE

Freelance Web Developer Jan 2024 – Present

- Frontend UI Engineering:** Translated client Figma designs into a fully responsive, interactive frontend layout for [dev.riseup.com](#), ensuring pixel-perfect cross-device compatibility.
- Full-Stack Development:** Designed, developed, and successfully deployed custom portfolio web applications for multiple international clients, managing the complete project lifecycle from requirements to hosting.
- Backend Integration:** Architected and integrated secure user authentication systems into existing client applications, significantly improving data security and access control.
- Site Optimization:** Managed ongoing maintenance and content delivery for a client's WordPress platform, optimizing site performance and user experience.

PERSONAL PROJECTS

Get-Me-A-Chai [buymeachai.datendiva.me](#)

- Architected a full-stack crowdfunding platform using React, Node.js, MongoDB, allowing users to create profiles and receive financial support.
- Integrated the Razorpay payment gateway to securely process transactions, managing test-mode API calls and webhooks.
- Implemented user authentication and secure routing using NextAuth, ensuring data privacy for creators and contributors.

Shopify Demo E-commerce [shop.datendiva.me](#)

- Developed a scalable, Next.js-based e-commerce storefront, leveraging server-side rendering for optimal performance.
- Integrated the Shopify Storefront API (Headless E-commerce) to dynamically fetch product catalogs and manage state across the application.
- Built out a mock checkout UI and product listing system, utilizing React hooks for responsive front-end updates and API data fetching.

Linktree Clone - Bittree [linktree.datendiva.me](#)

- Built a streamlined single-page application (SPA) enabling users to aggregate and share multiple social links via a single custom URL.
- Designed a responsive, mobile-first UI using Tailwind CSS, ensuring a seamless experience across all devices.

Authenticated Blog Website [shazblog.datendiva.me](#)

- Enabled user authentication using Bootstrap in the frontend and Flask in the backend (additional features currently in progress).
- Implemented secure user sessions and password hashing (using tools like Werkzeug/Bcrypt) to manage author authentication and protect routes.

TECHNICAL SKILLS

- JavaScript
- Python
- React
- Next.js
- Flask
- Node.js
- MongoDB
- SQL
- REST APIs
- HTML5 & CSS3
- Tailwind CSS
- Bootstrap
- Responsive Design

EDUCATION

B.Tech, Computer Science & Engineering

University of Lucknow
CGPA- 9.69/10
2024 – 2028

Senior Secondary (XII), Science

Good Samaritan School, South Delhi (CBSE)

2023 | Percentage: 92.30/100

EXTRA CURRICULAR

- Regularly tackle Data Structures and Algorithms (DSA) challenges on LeetCode to continuously refine logic, optimize code efficiency, and strengthen core computer science fundamentals.
- Create and manage experimental digital content pages on Instagram to analyze platform algorithms, user engagement trends, and digital distribution.
- Currently self-studying Arabic in my spare time, driven by a passion for continuous learning and challenging myself with new linguistic frameworks.
